HARSHITA DASARI USA [kanthivalety@gmail.com](mailto:kanthivalety@gmail.com)

"Caught On Fire" 69x36x32" The dress is hand-stitched with traditional khadi fabric from India. There is a humidifier hidden underneath the dress that ejects mist via pipes when turned on. Orange and yellow lights around the dress transform the mist into fire. This gives the illusion that the ends of the dress are caught on fire as shown in the images below.

(The fire effect happens when it's dark)
